

## **Student research survey on pediatric wheelchair use**

Dear members of GASOPT:

We are four Doctor of Physical Therapy students from Georgia State University conducting a survey regarding wheelchair use and current understanding of dynamic seating by pediatric physical therapists. Please take 5 to 10 minutes of your time to follow the link below and complete the questionnaire that follows. Submission of the completed survey will give informed consent to use your data for research purposes. Attached you will find an informed consent document with additional information about the study for your records. Your feedback would be greatly appreciated; however participation in the survey is voluntary. Thank you for your time.
